## Objective

### *Visualise Draw Communicate*

The course will allow you to draw amazing fashion illustrations immediately. Designers who have the power to communicate visually have a big advantage in the world of fashion design. Teaching and helping students to achieve the results in classroom and online around the world has been my job for more than 25 years.

You do not need any drawing experience at all. Olena Luggassi have taught thousands of people around the world who have never had any fashion drawing experience or training previously.

This course will take you through the full drawing process.

You will learn:

- Draw proportional fashion figures
- Draw hair, head and facial features
- Design drawing techniques
- Rendering techniques
- Fabric and fabric print drawing techniques
- Presenting your illustrations
- Using your illustrations in a creative way and more

Also, it is official, YOU CAN CREATE a very unique fashion line by using your own sketches, drawings and fashion illustrations. We will EXPLORE the possibilities of starting your own fashion line and using your own drawings and illustrations as your creative unique designs.
